Yeah, I dont think that guy who embellished his book in real life deserved the wrath of O. That was political garbage. She sold herself out on that one.

Dumbasses, believe it or not South Park is a show that's focused on people who are well-read and keep up with current events. A lot of the shit in it has to do with the idiots that reside in this country and the stupid shit they do and believe. The point of this episode is that the book actually helped people, but since it was a lie blah blah you get the point I'm going to bed.
